What customers are saying

"Since implementing [Sure Premium Audit], our field staff's turnaround time has gone from 27 days down to 9 days."

Michelle O.
Premium Audit Manager
Tier 1 Carrier

"[Insurity's] ability to evaluate our book of business and automatically order audits allowed us to find and visit a \$500 policy which resulted in a \$100,000 premium due. Think of all the years without [Sure Premium Audit] and the premium missed!"

Robert M.
Assistant Vice President
Tier 4 Carrier

Top 5 reasons carriers choose Sure Premium Audit

Uncover additional premium

- Automatically screen your entire book of business daily to generate audits without human intervention
- Uncover missing premium and reduce misclassifications with robust predictive analytics models

Streamline audit processes

- Automate premium audit processes with automatic payroll validation and online data collection portals for policyholders and agents
- Forecast and plan your upcoming audits over the next year with real-time projection reports

Improve policyholder satisfaction

- Keep policyholders up to speed in the auditing process with custom email and text communications
- Deliver a better audit experience for your policyholders with online self-scheduling and submission tools

Implement changes without IT

- Configure your rules, letters, and forms through a drag and drop, no-code interface designed for business users
- Set up role-specific workflows and tasks with configurable, real-time dashboards

Boost audit volume

- Increase audits without adding auditors with instant assignments, AI-powered analytics, and real-time tracking
- Replace spreadsheets and paper with software-based applications designed for your field staff
